Historic Liverpool icons sparkle

In Depth Managed Services has secured the window-cleaning and industrial-cleaning contracts with Liverpool City Council to keep two key historic Liverpool buildings sparkling clean for thousands of visitors each year.

St George's Hall and the Town Hall are icons of the city. The exterior of each will take nearly a full day to complete, with three men working on St George's Hall and two on the Town Hall.

St George's Hall, a Grade I listed building is one of the finest neo-classical buildings in the world, and its tunnel-vaulted ceiling is the largest of its kind in Europe. The hall is home

to the city's Register office and is used for a wide variety of events and concerts.

Gary Johns, Head of In Depth's window cleaning division, said: "We are really pleased that Liverpool City Council chose In Depth Managed Services to provide window cleaning services to the two sites. Both are fantastic buildings, and are well known, not just in Liverpool but worldwide.

"Over the coming years In Depth will provide a number of services to the sites, from window cleaning to industrial jet washing, which will keep the buildings looking in a pristine condition for the many thousands of visitors who attend the sites each year."

Measurable results:

- In Depth uses the latest management systems, technology and materials, and is at the forefront of keeping staff training at the cutting edge
- We achieve a monthly quality audit score rating of 5 out of 6
- Achieving 100% schedule cleans
